### ***HAPPY SPRING!***

I am coming over to do General Pest Control treatment on FRIDAY JUNE 6<sup>TH</sup>, 2025. Times will be determined by prescheduled appointments. Approximate times will be finalized on JUNE 5<sup>th</sup>, weather permitting. If weather postpones the treatments, I will contact each prescheduled appointment to determine a later date.

Please call me to let me know what your specific pest problems are so I may have the appropriate equipment & chemicals needed to treat your home.

If you have issues with **fleas, bedbugs, termites** or **cockroaches**, these are NOT included with the General Pest Control Treatment. General Pest Control Treatment will assist in the prevention of cockroaches, but cannot cure a current infestation and will require a separate treatment.
